

ALTOCEDRO DESNUDOS 2010

THE WINE

"Desnudos" was born as a collection of special batches of wine that are usually not commercialized, thus, transforming this unique wine into a real jewel and an iconic piece of art. The production is limited to only 2 barrels from the very best harvests. This Edition exhibits a new masterpiece of one of the most prestigious artist of Mendoza.

THE ARTIST

José Bermudez was born on July 22nd, 1923 in San Rafael, Mendoza. Painter, draftsman and engraver. Initially, he started with landscape painting. In the 50's, he was part of the "Club of Engraving" led by Luis Quesada. At the same time, he also joined a muralist group. In 1956, he made his first solo presentation, a milestone that would mark the beginning of a long artistic career. Then, he devoted himself to easel painting. His style is figurative, emerging from reality and the human figure, especially feminine, but gradually moves away from it by adding abstract and cubist elements.

He conceives art as a means to fill the emptiness of a need that claims and nourishes itself of love for life, beauty and truth.
